BOOTSTRAP YOUR CAREER			

## OBJECT

EURA NOVA's boot camp is a disruptive recruitment program. It is a perm contract for a full time job. The aim is to let you define the job. We'll support you in an intensive **3-month Data training**. You will experience the roles of architect, designer, developer, scientist, devops, agile coordinator in real conditions, by working at our Headquarter, EURA NOVA, Rue Emile Francqui 4, 1435 Mont-Saint-Guibert.

Our bootcamp starts in September 2017. During the 3-month intense Data training, you will tackle real industrial challenges exploring the limits of Data engineering and how we can push them further. You will be asked to collaborate and take your role in the project in order to achieve the goal. Your work and contributions will be assessed each month, helping you discovering better your specific talents. Workshops and coaching with experts will be organised to help your knowledge and expertise grow.

You will work on tomorrow's **big data architecture**, in the field of **data science** and get your hands on **proofs of concepts**.

After the intense training, you will continue working on challenging projects on side of our experts.

## PROFILE

This bootcamp is for people who love solving problems and make a difference with I.T.

At EURA NOVA, we believe you can learn anything with the right attitude. If you are curious and want to learn more, if you are a bright thinker and want to challenge the status quo, if you are an eagle eye and want to do elegant work, start by challenging your limits and join our boot camp.

If you are an IT passionate and have a strong basic knowledge in IT & applied mathematics, take the opportunity to become an expert in short time with EURA NOVA and apply.

## RECRUITMENT PROCESS

To apply for the bootcamp, send us an email. Your email should contain your latest CV and your motivation.

Your motivation letter should mention :  
- [why you want to attend the bootcamp](#),  
- [one of your projects that you are proud of and is linked to Data](#).

Once we receive your application, we will plan a short phone call. All going well, we will then plan a face-to-face meeting at our premises. Our recruitment process can last up to one month.

## Deadline for application

**1st March 2017**
